Thank you for your interest in the Laparoscopic Adjustable Gastric Banding procedure. Enclosed is the information you requested.

After reviewing this information, please fill out the patient information packet and register to attend a free informational seminar at mid-ohiovalleylapband.com to begin your weight loss journey. After attending a seminar, and prior to calling for an appointment, you will need to call your insurance company at the number listed on your card (benefits and eligibility or customer service) to confirm that this is a covered benefit. You may be asked for a surgical procedure code, that code is 43770. If your insurance does not cover this procedure, there are alternatives available that we can discuss with you. Before your appointment, it would be beneficial for you to visit the lapband.com website.

We look forward to seeing you soon and are excited to assist you in your journey.

Sincerely,

Isidro A. Amigo, D.O.
